

Welcome to the world of Arbour Landscape Solutions

Great prices
& great service

We supply over 7000 landscaping materials to landscapers, garden designers, architects, builders, property developers and self-builders across the UK. Our stock-holding located in Leighton Buzzard holds a wonderful range of porcelain, natural stone, limestone setts, clay pavers, split-faced tumbled limestone walling and paddlestones along with all of the paving installation accessories needed to lay fantastic patios. These core products are available all year round for our clients to access for weekday deliveries throughout the UK.

We welcome guests to visit us for by-appointment only tours around the stock holding, an opportunity to see and feel the stone you wish to specify, discuss upcoming projects with our landscaping specialists, and walk away with samples of your preferences.

In Stock Tile Categories

Bespoke Finishes

Arbour Landscape Solutions supports clients with free technical advice when specifying landscape materials for unique projects. We can source precisely what you require for unique stone finishes, copings and setts to really set your project apart.

Bespoke treatments to the entire paving range can be applied to achieve exactly the finish our clients require.

The Bespoke service includes full specification and product sourcing services.

Porcelain Paving

For easy care surfaces that ooze style and sophistication, choose porcelain paving and steps. Selected designs are available with 2-3 day delivery lead times direct from our stock holding.

Limestone Paving

Our beautiful Limestone paving offers an affordable option for both traditional and modern garden designs.

This timeless material has bags of character and with every piece being unique you can be assured that your client has something that stands out with inherent natural beauty.

Clay Pavers

A collection of Clay Pavers from Wienerberger in a rich array of early colours. These beauties are created using 100% natural constituents and traditional methods. They make an excellent alternative to natural stone.

Paddlestones

Paddlestones are exactly what's needed for bringing structure, shape and form into the landscape. Available backed off for simple and fast wall construction. Uk sourced whenever possible to keep haulage costs and carbon footprint to a minimum.

Limestone Setts

Our Limestone Setts have been honed and tumbled with sawn edges to create a smooth sleek look. Limestone is a stone of immense character.

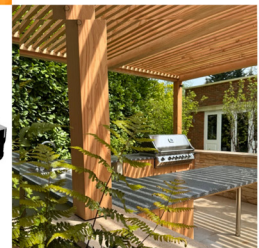

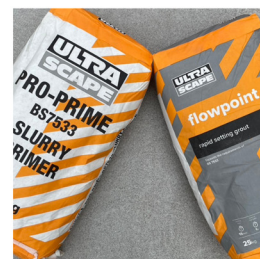

Use for paths, patios or as an edging.

These setts compliment the Beige Limestone Paving perfectly.

Split Faced Tumbled Limestone Walling

New to our range Split Faced Tumbled Limestone Walling. The soft, creamy-beige tones, liberally sprinkled with fossils and crystals make for a highly tactile material that exudes character. Tumbled edges give that lovely 'bedded in' look often associated with traditional stone structures.

Patio Installations

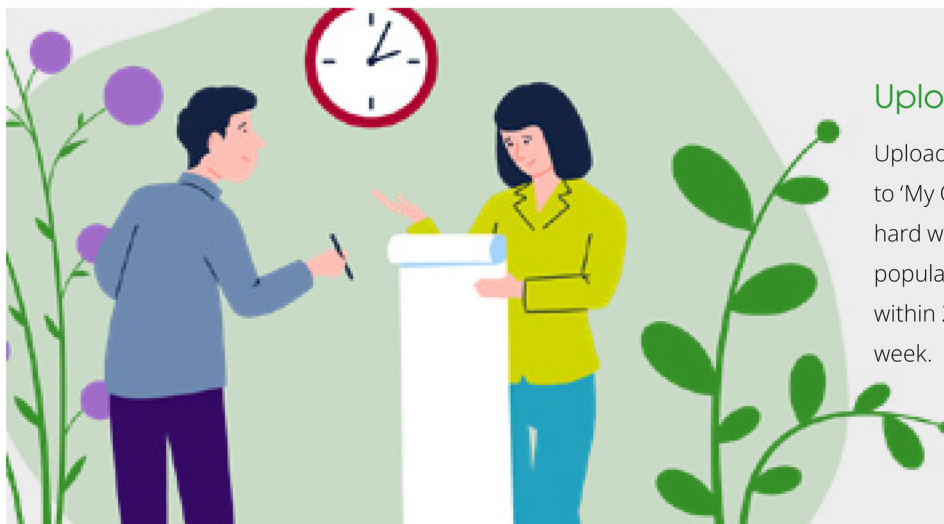

Source everything you require for perfect patio installations, including primer, group, recessed manhole covers, and threshold drains.

Timber for structures and fencing is also available within our extensive range.

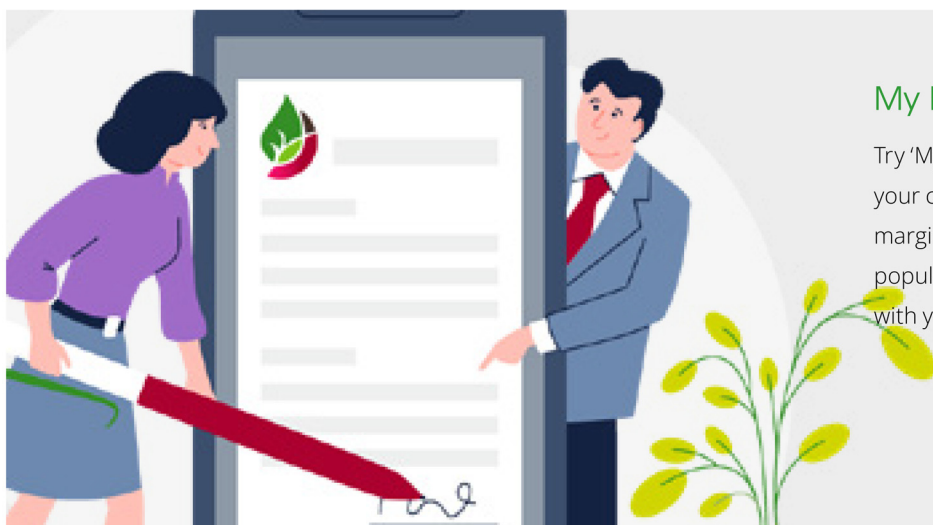

Business Tools

As a registered customer of Arbour Landscape Solutions, you will gain access to thoughtfully designed business tools that will support your procurement and invoicing process. Clients can add multiple users from their team to enable swift quote building for multiple projects.

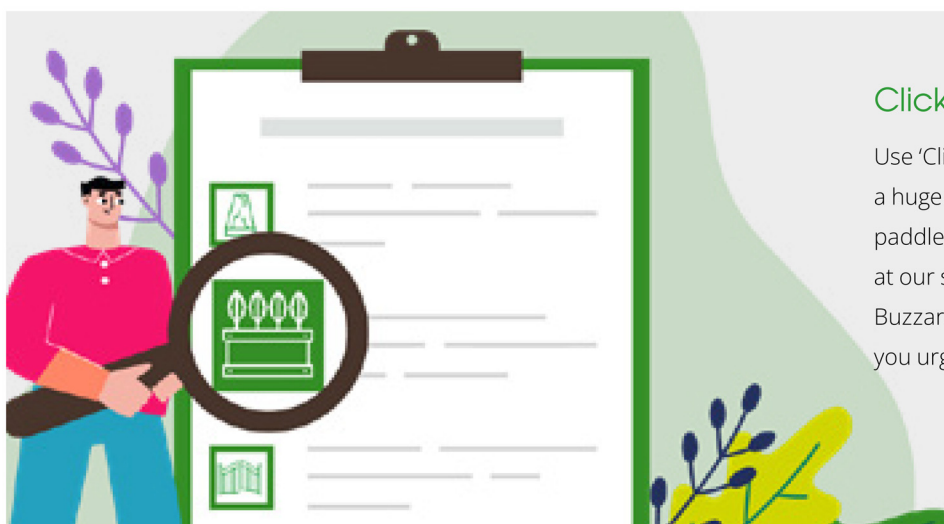

Upload your list

Upload your entire materials list to 'My Quotes' and we will do the hard work for you, returning a fully populated and priced quote to you within 24 hours during the working week.

My Personalised Quote

Try 'My Personalised Quote' add your company logo, add your margin and you will receive a fully populated quotation fully branded with your company details only.

Click & Collect

Use 'Click and Collect' choose from a huge range of paving, clay pavers, paddlestones and equipment held at our stock holding in Leighton Buzzard – a perfect solution when you urgently need materials.
