

Blended Riven Stable Yard Cobble Setts

Blended Riven Stable Yard Cobble Setts offer a timeless and authentic finish, perfectly suited to traditional stable yards, courtyards, and period-style landscapes.

Each sett features a naturally riven surface, creating a subtle textured appearance that enhances grip while delivering rustic charm. The blended colour palette combines soft greys, warm buffs, and gentle earthy tones, producing a beautifully varied yet cohesive surface that complements brickwork, stone buildings, and rural surroundings.

Designed for durability and strength, these cobble setts are ideal for areas subjected to frequent foot traffic, vehicle use, and equestrian activity. Their robust construction ensures long-lasting performance, while the irregular riven texture adds visual depth and character, evoking the classic appeal of heritage paving. Perfect for creating practical yet elegant stable yards, pathways, and driveways with an authentic old-world feel.
