Tension Lever (TL1)

### Key Benefits

- Ideal for roof gardens, urban and shallow planting
- Nestable and lightweight for compact and easy transportation
- Strong and compact cells with a unique cup for water storage
- System is supplied complete so no requirement for heavy kerbstones
- Less labour required, reducing installation time and cost
- No drive rod required for installation
- Unique two-way ratchet tensioner allows for even stability and pressure on the rootball
- Specially engineered tension lever allows superior leverage and user comfort during tensioning
- Galvanised steel wire allows superior tension and no reduction in load
- Plati-Mat spreads the load of the galvanised steel wire and protects the rootball
- Wire is available in a stainless-steel option for a permanent solution
