

Meli Dark Grey Pre-Sealed Tumbled Limestone Paving

Create a timeless, contemporary outdoor space with Meli Dark Grey Pre-Sealed Tumbled Limestone Paving. Crafted from high-quality natural limestone, this elegant paving features a rich dark grey tone with subtle natural variation, delivering a sophisticated finish suited to patios, pathways, terraces, and garden features.

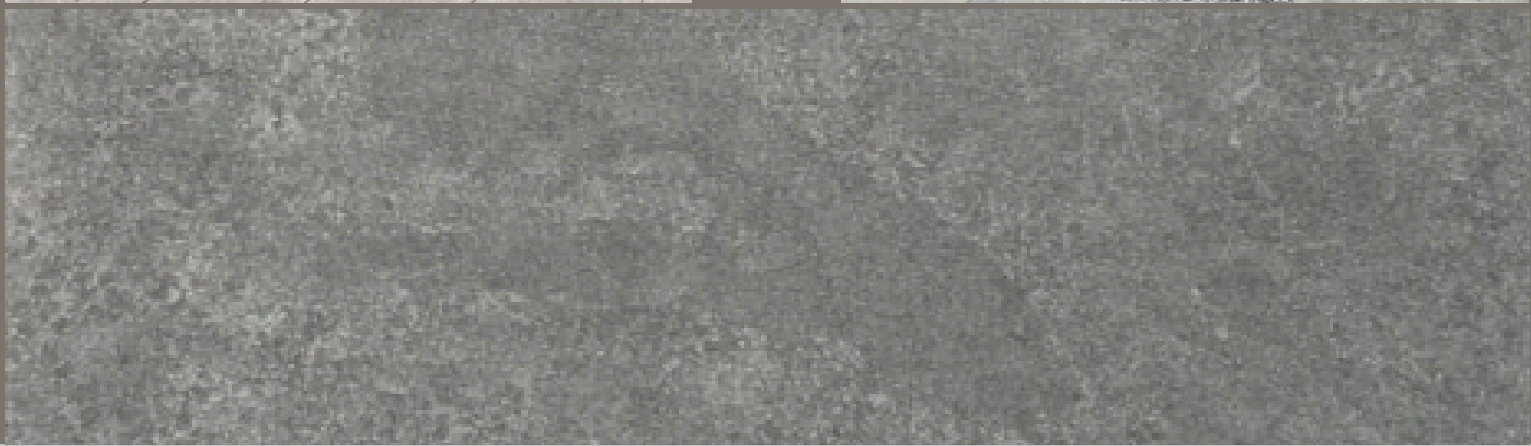

Each slab measures 900 x 600 x 20mm and is supplied pre-sealed for added protection and easier installation, helping to resist stains and reduce ongoing maintenance. The tumbled edges soften the appearance for a gently aged look that blends beautifully with both modern and traditional landscapes.

Choose from two distinctive surface finishes to match your project style:

Option 1 – Light Acid Washed Surface: A lightly textured, characterful finish with a refined, natural feel.

Option 2 – Flamed Surface: A slightly more textured surface that enhances slip resistance while showcasing the stone's natural beauty.

With a pack coverage of 16.2m², Meli Dark Grey paving offers a durable and practical solution for residential and commercial landscaping. Limestone's natural strength ensures long-lasting performance, while the consistent sizing allows for efficient installation and clean, professional results.
