

Old Sinai Pearl Dark Grey Pre-Sealed Tumbled Limestone Paving

We've pre-sealed these pavers for your convenience, meaning that they are less porous and therefore less prone to staining, algae attack and/or efflorescence.

These images don't do the product justice - you need to order samples in order to appreciate the rich grey colour, the myriad of fine veins, and the warm copper tones coming from the mineral pyrite, which was trapped within the rock when it was formed millions of years ago.

We have chosen the honed surface with tumbled edges to minimise chipping.

We strongly recommend that you look at our variation images to make sure that the level of variation found in this material is to a level your client will expect. Our team will remind you to check these before your order is finalised.

Product Information

- 900mm x 600mm x 20mm x 30 per pack x 16.20m² - 850kg
Factory Pre-Sealed with 2 coats of a sacrificial water-based breathable sealer to reduce water absorption.
- Tolerances +/-2-3mm.
- Honed Surface with Tumbled Edges.
