

Old Sinai Pearl Grey Acid Washed Tumbled Limestone Slim-Setts

Sourced from the same quarry and produced to the same high standard as our pre-sealed slim-setts, these beauties have all the subtle colour variations you'd expect from limestone of this calibre. But we've simplified the product so that we can drop the price without compromising the quality.

The surface finish is a simple, yet stylish acid wash and we've tumbled the edges to ensure bags of character.

Please note, rust marks may appear in the stone due to iron and mineral within the stone. This is not a fault. The marks may be more visible when the tiles are wet, and may become lighter in colour after installation, in dry conditions and over time.

Product Information

200mm long x 50mm wide x 40mm deep.

Tolerance: +/- 3-5 mm on all axis's.

Option 1 : Acid Washed Surface Finish with tumbled edges, with 2 coats of a sacrificial factory applied water based sealer to reduce water absorption.

We suggest an order of an extra 10% for wastage.

Fissures in stone are a natural part of the stone and are not considered flaws or defects. You can just admire them for making your stone project unique.

Please note limestone dust residue could be present within the crates, once the products are laid the dust should be easily removed with water, hard brush/pressure washing application.
