

Sinai Pearl Beige Acid Washed Pre-Sealed Sawn Limestone Slim-Setts

These popular limestone slim-setts are acid washed, sawn edges & factory pre-sealed.

And just look at that colour. Gorgeous beige honey coloured tones for a warm neutral look and feel.

The beauty of slim setts is that apart from being smaller and therefore lighter to transport, you won't need to use nearly as much grout when you're installing them. So these beauties are more cost effective than brick pavers or standard limestone setts.

Laid in herringbone, running bond, basket weave, chevron or stack bond and achieve a range of design options for clients.

Product Information

- 200mm long x 50mm wide x 40mm deep.
- Acid Washed Surface Finish with Sawn Edges.
- Factory Pre-Sealed using 2 coats of a sacrificial water based breathable sealer to reduce water absorption.
- 850 per crate @ 950kg.
- Approx 8.5m² coverage per pack, approx.
- Tolerance: +/- 3-5 mm on all axis's.
- Minimum 3-5mm joint width recommended.
- Can be laid on either 50mm side or a mixture of both sides.
- Pendulum Test Value, 66 Dry, 45 Wet.
- Fissures in stone are a natural part of the stone and are not considered flaws or defects. You can just admire them for making your stone project unique.
- Please note limestone dust residue could be present within the crates, once the products are laid the dust should be easily removed with water, hard brush/pressure washing application.
- Please note limestone when laid is a strong material, however it can be brittle and whilst we take measures to protect the stone as best we can, damages do unfortunately happen in transit. We will replace any slabs that arrive broken, but please handle with care.
- We suggest to order 10% for wastage.
- Disposal of all packaging/pallets is the responsibility of the customer.
